

Great Escape

Music and Lyrics by The Rewind

Gonna tell you about a nightmare
Or maybe it was a dream
I can't remember if I was there
Maybe that's just the way it seems

Cause we were walking the shadows of the moonlight
We're not leaving till dawn
I open my eyes to see all the lights shinin'
We're all here but we're all gone

Cause our love in crumblin' to pieces
I know we'll never be the same
When I see your face in the mirror
I know I'm going just a bit insane
I'm in a great escape
I'm in a great escape

People have been talking for too long
You should know what they think
You're all I want but I may be wrong
But I've been right about everything

We were walking the paths in the darkness
The skylines on the horizon
It's all good till our love starts sparking
And we've got to get down our timing

Cause our love in crumblin' to pieces
I know we'll never be the same
When I see your face in the mirror
I know I'm going just a bit insane
I'm in a great escape
I'm in a great escape
